Message from the Owners

We have always believed that the way we raise foals and yearlings gives them a competitive advantage over and above their breeding BUT we have never been able to definitively say that this is true.

Now we can!

Research done at John Hopkins University and the University of Texas has demonstrated that genes can be switched on or off throughout adulthood and alter our mental and physical health. How? Things like diet, lifestyle and stress have been traced to altered genes which in turn can be either good for us or bad for us. Obviously the way we raise our foals alters their genes in a dramatically positive fashion.

Now, not every one of the horses raised at Oak Knoll Stables is going to be a star but if you believe in playing the odds, boarding your broodmares, foals and yearlings at Oak Knoll could be one of your best bets.

Ken Morden and Caroline Thornton, Owners

Advantages for Broodmare Owners

We have a 98% success rate in getting mares pregnant!

- Eight years experience in delivering and raising foals
- Every horse is weighed every 30 days and individual feed programs are developed according to each one's target weight
- Foals and weanlings are handled daily
- Cameras on all foaling and broodmare boxes
- Fully fenced paddocks with shelters and heated water bowls
- Fully equipped lab with mare and foal chutes
- Fecal counts completed on site
- Experience in breeding to US sires
- Broker available for importing semen
- Yearling preparation is available for eight weeks prior to the sales dates

State of the Art Boarding Facility

- Broodmares & Foals
- Weanlings & Yearlings
- Riding Horses

Broodmare Boarding and Foaling

We Need Broodmares

The uncertainty in the Ontario racing industry has left us and a great number of people who own broodmares asking the question - "What should we do?"

We believe that there will always be a market for good yearlings regardless of the residency of the mare and the sire. Obviously they will have to come from top notch mares bred to the best stallions in North America.

If you have a broodmare with a great pedigree and either open or in foal to a top notch stallion we would be interested in buying a share of the foal and/or the mare. If you have a great mare that is at the end of her racing career we would be interested in buying a share. The mare would be stabled at Oak Knoll and we would foal out the mare and raise the foal.

Our record of successful foaling and raising winners is unquestionable - we breed and raise winners.

What is most astounding is the number of our horses who have won over \$50,000 (excluding the 2YO's of 2013 who have not had enough races) -15 out of 33 (45%)!

Bonus for Riders

- Riding access to the Ganaraska Forest - 11,000 acres of natural forest with marked trails throughout.
- Guided rides available on request

Visit Us

You are always welcome to visit Oak Knoll Stables and see our facility. Please call ahead (905 -797 3025) to make sure that someone will be here. Full instructions and maps on our website - www.oakknollstables.com
